

## NEBOSH Certificate in Fire Safety

### Course Summary

The new NEBOSH Certificate in Fire Safety syllabus consists of 2 Units, FSC1 Fire Safety and FSC2 Fire Risk Assessment.

The qualification looks at fire safety and can be applied in many sectors. On completion of the qualification, your learners will be able to:

- justify fire safety improvements using moral and financial arguments;
- advise how fires and explosions can occur and the appropriate controls to minimise fire and explosion risks;
- advise their employer on the requirements for the fire protection of premises and workers including the appropriate training obligations;
- carry a fire risk assessment in their own workplace, recognising a range of common fire hazards, evaluating risks (taking account of current controls), recommending further control measures, planning actions.

### Who Should Attend

The NEBOSH Certificate in Fire Safety is ideal for:

- Those responsible for fire safety in low to medium risk workplaces

- Health and Safety Managers
- Facilities Managers
- Health and safety representatives
